

The total number of samples (approximately 25) were agreed to in a telephone conversation with Lynnette Elser on October 25, 1991.

### Personnel

The following personnel and their responsibilities have been assigned to this task:

<b>Name:</b>	<b>Responsibility:</b>
Paul Davis .....	Site Manager
Linda Ciarletta .....	Site Safety Officer/Sampler
Gregory DeCowsky .....	Sampler
Richard Costello .....	Sampler
Charles Meyer .....	Sampler

### Procedures

The checklists in this task work plan identify procedures to be implemented during this task. All work will be conducted in accordance with the generic field sampling plan and applicable guidelines identified in the quality assurance project plan and health and safety program plan. All samples will be collected in approved sample containers with preservatives, labels, and recordkeeping procedures specified in Contract Laboratory Program (CLP) guidelines.

### Safety Considerations

Contaminants of concern are TCE (up to 30 ppb) and 1,1,1-TCEA (up to 54 ppb), which have been detected in groundwater samples and samples from a pipe discharging at the site. All sample locations will be monitored using an HNU and/or OVA, and appropriate levels of protection will be utilized.
